Apportionment of the Shandy Income between the District Board
and the Village Panchayets. Re -

In forwarding herewith a copy of Hassan Deputy Commis-

sioner's letter No.D.Dis.G.1682-32 dated 10th March 1934, in the matter of the apportionment of the Shandy Income between the District Board and the Village Panchayets, I have the honour to state that the Deputy Commissioner reports that there are 54 Shandies in the District which are being held in the jurisdiction of the Village Panchayets and recommends that one-fourth of the net $\times$ realisations from these Shandies may be apportioned to the Village Panchayets concerned instead of crediting the entire realisations to the District Board. The average realisations from these 54 Shandies are reported to be Rs.22,080/- per annum. It is stated that the District Board are not willing to make over any part of the Shandy Income to the Village Panchayets. As some expenditure is incurred by the Village Panchayets on account of conservancy and sanitation of the places where the Shandies are held, I agree with the Deputy Commissioner and recommend that one-fourth of the net collections of the Shandies held in the Village Panchayet areas may be made over to the Village Panchayets concerned as was done in the case of the Kadur District in Government Order No.L.6555-57/L.B. 98-33-7 dated 5th March 1934.

With reference to your letter No. L. 4022/L.B

solution of the District Board in the matter of
apportionment of one fourth of the net income from
the several shandies in this District to the res-
pective Village Panchayets, I have the honor to state
that this subject will be placed before the District
Board at their meeting to be held in September next and
their views communicated to you soon after the meet-
ing.

information of Government that this question has
formed the subject matter of discussion at the several
meetings of the District Board on previous occasions
and they have not expressed themselves in favour
of the proposal, in-as-much-as the control, supervision
and management of the shandies are entirely vested
with the District Board under section 45 of the

 The question of apportionment of revenue from
 shandies between the Village Panchayats and the Dis-
 trict Board has formed the subject matter of discus-
 sion at the several meetings of the District Board
 dated 12th November 1932 and no apportionment of this
 for a few years past with the result that they have
 income was made to the Village Panchayats concerned
 The practice has been that while some District Boards
 viz., Kolar, Kadur etc., have accepted the proposals
 for the apportionment in some cases, there has been

no general orders (of) Government governing such cases

although the Government are of opinion that each

case might be disposed of on its merits separately. The present reference has been however initiated by the Deputy Commissioner, Hassan District who holds that it seems best to apportion definite shares between the District Board and the Village Panchayet and that $\frac{1}{2}$ of the gross realisations from each shandy may be assigned to the Village Panchayets who may be made responsible for the sanitation on the shandy grounds. The Revenue Commissioner in agreeing with his views has recommended that $\frac{1}{2}$ of the net collections might be made over to the Village Panchayets ~~has-the-result~~ and the Government have called for the resolution of the District Board in the matter.

In this connection, I may submit that all shandies in the District wherein fees were levied prior to the introduction of the new District Board and Village Panchayet Regulation were under the control of the defunct Taluk Boards and their services and commitments have been made over to the District Board as per District Board's Regulation of 1926. As a consequence, the revenues derived from these shandies were got credited to District Funds, as in the case of other assets as per G.O.No.3059-124/L.B. 25-26-14, dated 12th November 1926 and no apportionment of this income was made to the Village Panchayets constituted under the Village Panchayet Regulation, irrespective of the fact that they were either within the Village Panchayet area or not.

Under section 45 (c) of the new District Board Regulation the control, establishment, management,

property of the District Boards and not of the Village
maintenance and visiting of markets, vest in the District

Boards and the Boards are therefore responsible for
these matters within the area subject to their authority.

Sub section (f) of the same section provides that -
measures necessary for public health, sanitation and
other local services affecting villages under different

Ranchayets and sanitation during jattras or fairs and
festivals should be adopted by the District Boards.

Sub Section (d) of the very same section also provides
that any other local works or measures, likely to pro-

to health, safety, comfort, convenience, interest or
welfare of the public in the District, should be under-

taken by the District Boards. Section 54 of the new

District Board's Regulation also lays down that public
market maintained out of District Funds are District
functions viz., sanitation and conservancy are the
obligatory duties of the Village Panchayets under

Further it can be clearly inferred from clause

Section 45 (i) of the new District Board Regulation

that such places, which serve the common purpose of mere

one Village Panchayet should be managed by the

District Board for the information of the Government that

No where under the Village Panchayet Regulation,

it is stated that the income from the shandies should
be credited to Village Panchayet Funds nor should

be managed by the Village Panchayets. The very id

establishing Village Panchayets was to make them inde

pendent units and that common interest should be ad-

ministered by District Boards. It is therefore clear

that the income from the shandies should be the sole

property of the District Boards and not of the Village Panchayets.

With this idea in view, the Board have resolved that they are not in favour of any apportionment, as proposed as it would very adversely affect their already attenuated sources of revenues.

Considering the terms of reference of the Revenue Commissioner in this behalf, it will be seen that his recommendation has been based upon the assumption that some expenditure is being incurred by the Village Panchayets on account of conservancy and sanitation of the places where shandies are held and that on this score an apportionment is called for.

Per contra I would however submit that such functions viz., sanitation and conservancy are the obligatory duties of the Village Panchayets under section 20 of the Village Panchayet Regulation and that any contribution to the Village Panchayets on this account would be a diversion from the legitimate charge on the District Funds. Although I may incidentally state for the information of Government that the rules issued under the notification relating to the right to collect fees at the several market provide for the clearance of manure etc., collected on the shandy premises.

Then again it is a point for consideration that although some of the shandies in the District are being held in the Village Panchayet area, the people that assemble there are not of one single village but

from several different villages. Hence the question is one affecting the public of the District in general as against that of a single village Panchayet.

Further a majority of the Village Panchayets have not been making use of their income but have allowed the same to accumulate while the finances of the District Board have been greatly crippled by the transfer of Rural Mohatarfa to the Village Panchayet. In so far as no new assignments of revenue have been made by Government to reimburse the loss sustained by the District Board consequent on the transfer of Rural Mohatarfa the Board have been faced with a serious problem as to how best they could ^{keep} help their expenditure within the income. The Proposal of the Revenue Commissioner is calculated to draw away $\frac{1}{4}$ of the revenue from the District Funds to the extent of nearly six thousands of rupees without any corresponding benefit from the Village Panchayets. Any facilities needed for the shandies have got to be provided by the District Boards alone by way of roads, putting up stalls, providing water facilities.

Under these circumstances, I would submit that it is not fair to apportion any portion of the collections from shandies to the concerned Village Panchayets as any such measure is bound to ^{debauch} detach from the efficiency ^{of} such services besides crippling the already attenuated resources of the District Board. And I may also be permitted to state that any proposal to insist on payment of contribution would be against

SIR, Subject:- Apportionment between the District Board and the Village Panchayets of the Shandy income in the Hassan District.

With reference to your letter No. L.6176/L.B.98-33-17 dated the 5/7th March 1935 on the above subject, I have the honour to forward herewith a statement showing the particulars called for therein, received from the Deputy Commissioner, Hassan District.

I have the honour to be,
Sir,

N. Madhava Rao
Revenue Commissioner.

Letter No.C.3988/33-34 dated 28th March 1934 from the Revenue Commissioner in Mysore to the General Secretary to the Government of His Highness the Maharaja of Mysore, Bangalore.

Apportionment of the Shandy Income between the District Board and the Village Panchayets. Re

In forwarding herewith a copy of Hassan Deputy Commissioner's letter No.D.Dis.C.1682-32 dated 10th March 1934, in the matter of the apportionment of the Shandy Income between the District Board and the Village Panchayets, I have the honor to state that the Deputy Commissioner reports that there are 54 Shandies in the District which are being held in the jurisdiction of the Village Panchayets and recommends that one-fourth of the net realisations from these Shandies may be apportioned to the Village Panchayets concerned instead of crediting the entire realisations to the District Board. The average realisations from these 54 Shandies are reported to be Rs.22,080/- per annum. It is stated that the District Board are not willing to make over any part of the Shandy Income to the Village Panchayets. As some expenditure is incurred by the Village Panchayets on account of conservancy and sanitation of the places where the Shandies are held, I agree with the Deputy Commissioner and recommend that one-fourth of the net collections of the Shandies held in the village Panchayet areas may be made over to the Village Panchayets concerned as was done in the case of the Kadur District in Government Order No.L.6555-57/L.B.98-33-7 dated 5th March 1934.

2. The enclosure received with the Deputy Commissioner's letter accompanies for reference.

Letter No.D.Dis.1682-32 dated 10th March 1934, from the Deputy Commissioner, Hassan District, to the Revenue Commissioner Mysore.

With reference to your Official Memorandum No.C.4006, 32-33 dated 28th March 1933, calling for proposals for the apportionment of the shandy realisations between the District Board and Village Panchayets, I have the honour to state as follows:--

From the information furnished by the Amildars of Taluks, it is found that more than fifty shandies are being held within the jurisdiction of the Village Panchayets, and so far, there has not been any apportionment of the shandy realisations in any case. The President, District Board, who had been requested to furnish the views of the Board in 3 or 4 cases has forwarded their resolutions to the effect that they are not in favour of apportionment. So, it is not likely that this question will receive favourable consideration at their hands.

Government have, in their order No.L.5341-58/V.P.50-27-3 dated 6th February 1929, observed that each case may be submitted for their orders on merits. In view of the large number of shandies that are being held in this District, the procedure laid down in the above Government Order will prolong the disposal of these questions. I am therefore of opinion that it seems best to apportion definite shares between these two local bodies and that one fourth of the gross realisations from each shandy may be assigned to the Village Panchayets who may be made responsible for the sanitation of the shandy grounds.

A statement showing the names of Village Panchayets within whose jurisdiction the shandies are being held, their demand, average income and expenditure and the amount realised by the District Board annually, is enclosed for kind perusal.
